

Jason Kathawa

(586) 746-7538 | jkathawa@umich.edu | Shelby Township, Michigan

Education	University of Michigan - Ann Arbor	GPA 3.35/4.00
------------------	---	----------------------

Stephen M. Ross School of Business

Bachelor of Business Administration (April 2021)

- Emphasis in Marketing and Strategy
- Peer Mentor for incoming first-years

College of Literature, Science, and the Arts

Bachelor of Science, Computer Science (April 2021)

- Recipient of Meijer Family Scholarship for first-generation college students
 - Ranked 1st of 50 teams in showcase for Elementary Programming Concepts course
-

Experience

Summer 2020	Katch Media	Los Angeles, California
--------------------	--------------------	--------------------------------

Product Manager Intern

- Led the inception and strategic planning of the startup's consumer-facing film-recommendations app alongside the Chief Product Officer, leveraging research to create an initial Product Requirements Document for the development team
- Analyzed the strength and performance of competitors and complements, culminating in a view of the competitive landscape as well as tactical insights and recommendations
- Mapped potential customer experiences through customer journey flows specially devised to be consumable to both the UX/UI designer and the development team
- Assisted in primary market research through survey design and focus group administration, informing the product team for strategic direction discussions

2019-Present	University of Michigan, College of Engineering	Ann Arbor, Michigan
---------------------	---	----------------------------

Instructional Aide

- Teach fundamental computer science concepts to students with no prior programming experience, helping establish a solid foundation for future computer-science education
- Adapt teaching style and content in office hours and discussion settings to be inclusive of different learning styles, increasing each student's understanding and boosting scores
- Develop exams for one of the University's largest courses under the dynamic remote learning curriculum, integrating feedback continuously to ensure fairness

Summer 2019	Quicken Loans	Detroit, Michigan
--------------------	----------------------	--------------------------

Software Engineering Intern

- Acted as a tech lead, product manager, and software engineer for a tiger team of software engineers tasked with creating a sales and marketing web application from zero to production in 8 weeks, helping to increase salespeople's closed loan volumes
 - Translated financially-technical feature requests into actionable tasks for a non-financially savvy team, enabling engineers to write elegant, scalable code
 - Facilitated and contributed to software architectural design discussions, resulting in a cohesive and intellectually safe team and a flexibly designed application
 - Communicated continuously with application's customers (marketing, sales) to integrate feedback and manage expectations, maximizing visibility and effective decision making
-

Skills &

Interests

- **Skills:** C++, Java, Python, HTML, JavaScript, SQL, CSS, R, Git, Excel, PowerPoint
- **Courses:** Advertising, AI, Branding, Data Analysis, Finance, Operations, Social Media
- Play hockey weekly with fellow business students for the Ross Ice Hockey club team
